

# Robusta RPA Installation Guide

## **ROBUSTA**

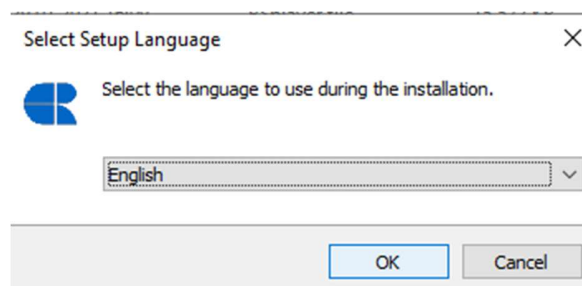

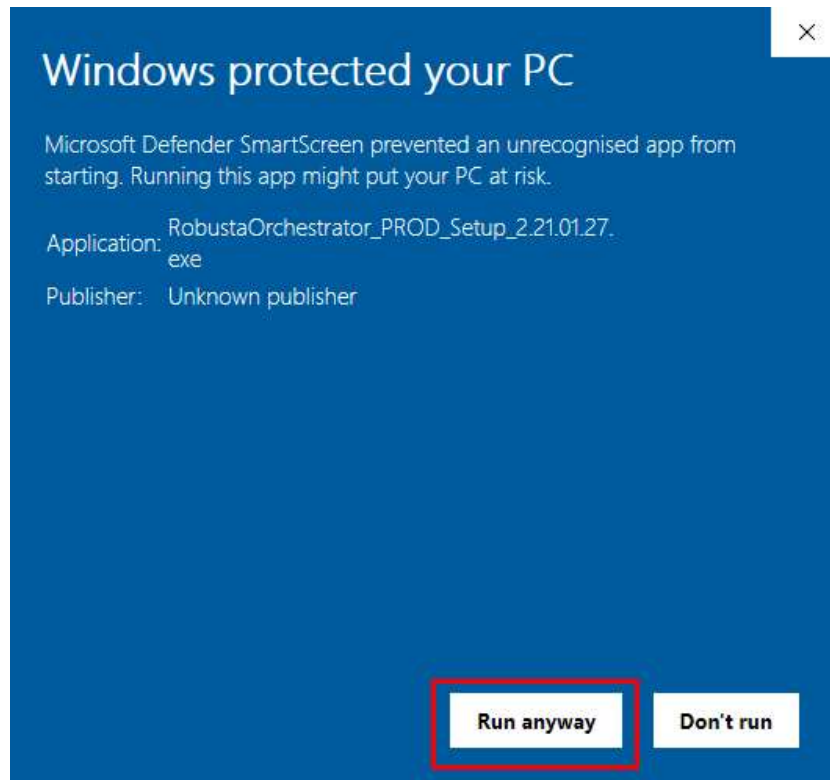

C O G N I T I V E   A U T O M A T I O N

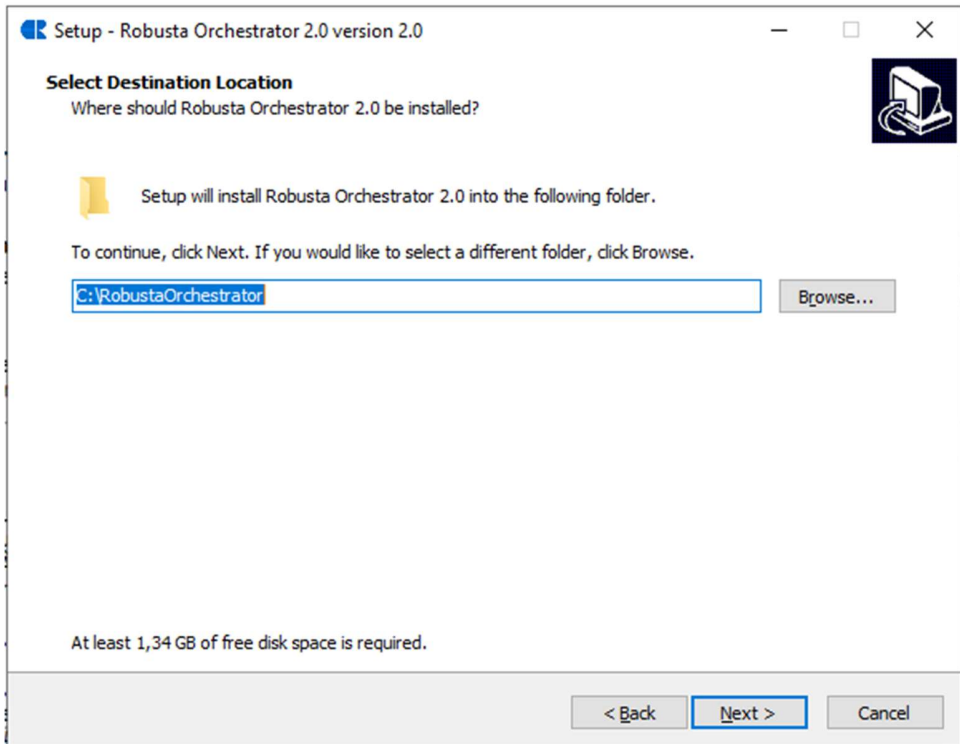

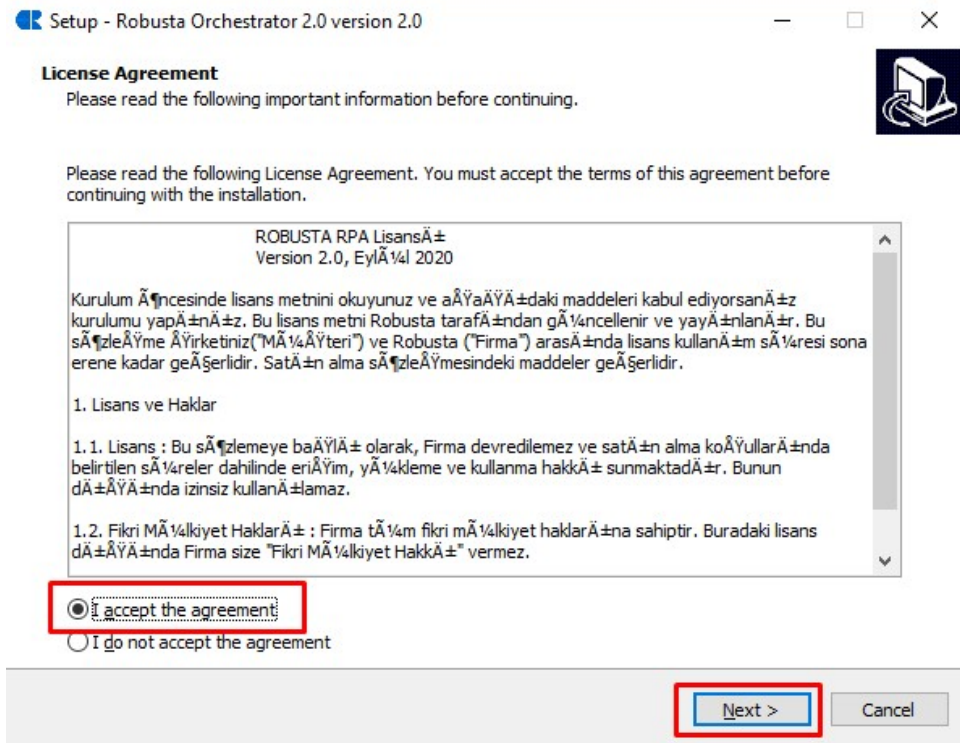

Robusta Cognitive Automation  
2021

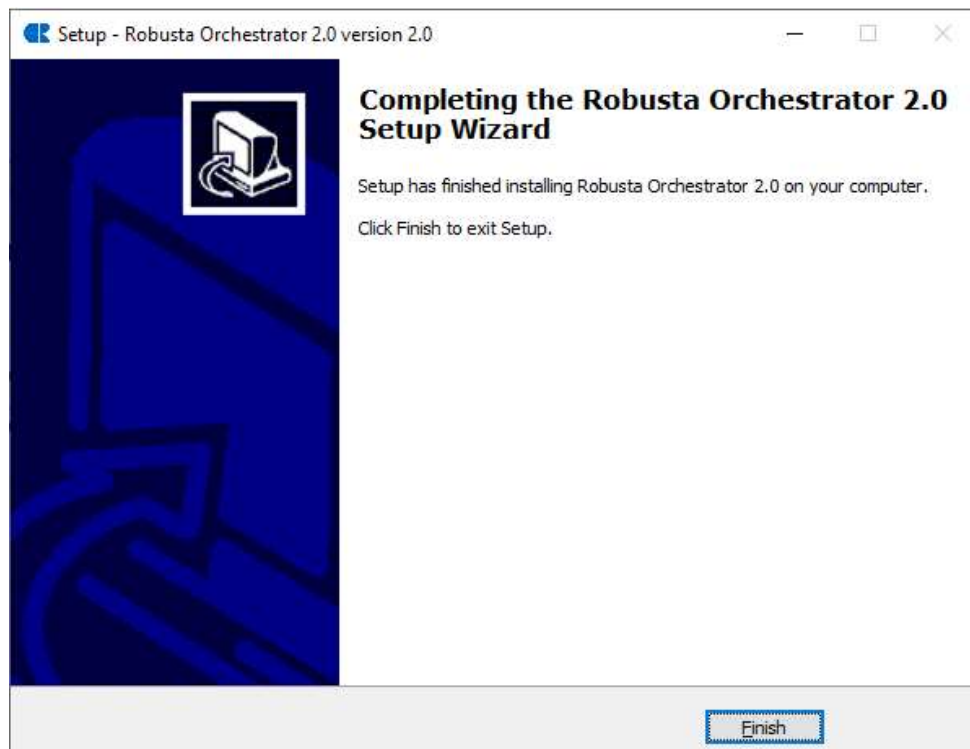

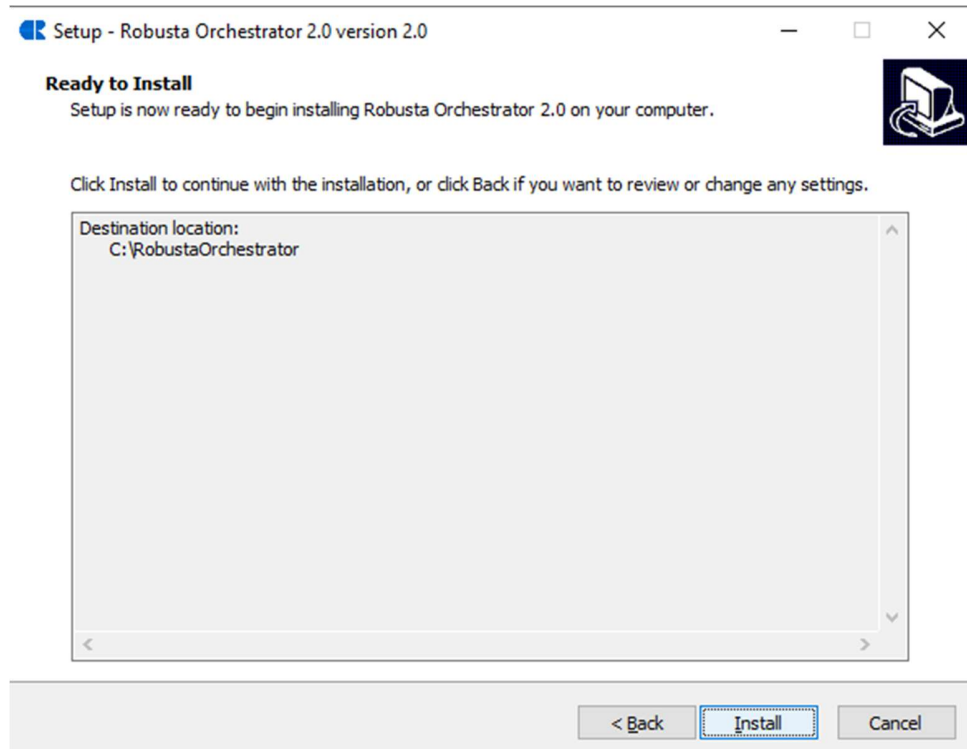

## Installing Robusta RPA Orchestrator

Run the given setup file (ie. RobustaOrchestrator\_PROD\_Setup\_2.21.xx.xx.exe) and follow the steps as shown below.

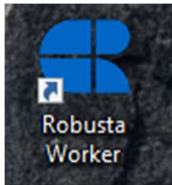

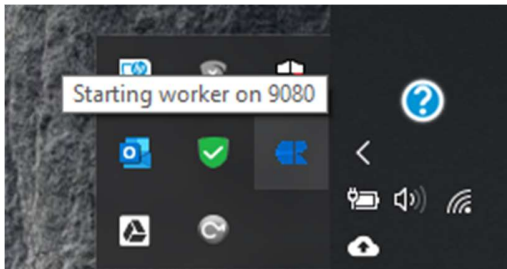

## Starting Robusta RPA Worker

Start Robusta RPA worker by clicking 'Robusta Worker' shortcut on your desktop. If the shortcut is not available, the file is located under following folder:

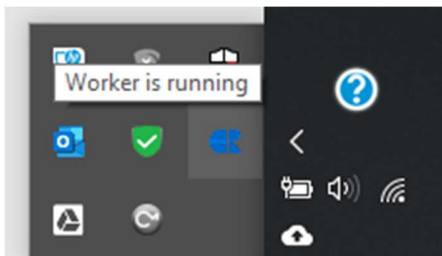

- C:\RobustaWorker\RPRODWorker.exe

Once you started Robusta Worker, you can check the status on Robusta icon at taskbar.

It may take up to 10 min. until Robusta Worker is completely up and running. You will see the status as shown below on Robusta icon at taskbar if the worker is up.

## Connection to Robusta Orchestrator Web Application

Try to open the connection screen by pressing the 'Start Robusta Connector' hotkey on the desktop. If there is no shortcut on the desktop, you can open the connection screen by running the file in the directory below.

- C:\RobustaWorker\driver\Start Robusta Connector gui.bat

On the 'Robusta Orchestrator Login' screen, provide the requested information in the table below and press the Connect button. When the 'Connection Status' value is 'Connected', the connection is successfully established.

<b>Username</b>	Your username (eg. murtaza.asci)
<b>Password</b>	Your password
<b>Worker Port Number</b>	8443
<b>Orch Address</b>	178.18.207.85:8443
